

Authorisation

Changes in the authorisations to speed up the process

Implementation of Electronic Tutorial and Assessment

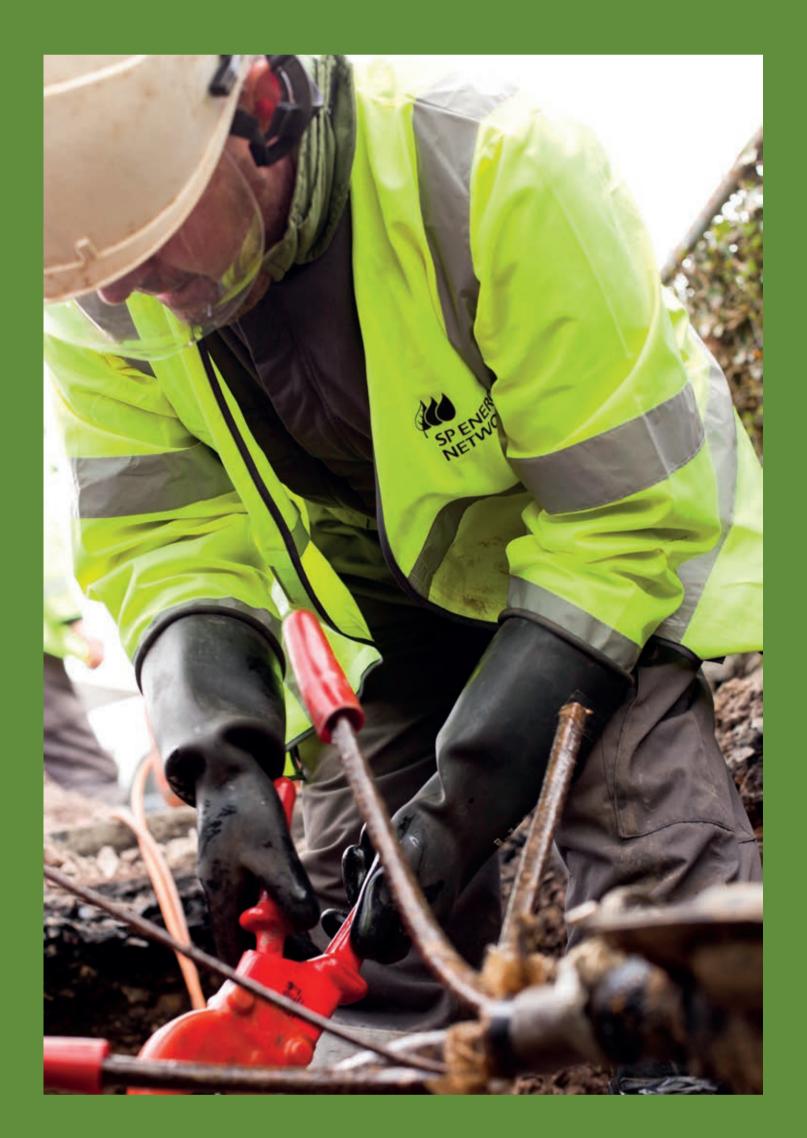

- Implemented Q2 2013
 - Access Movement and Egress (AME) to substations Initial (EN-1/EN-2, WI-2)
- Implemented Q2 2014
 - Safety Rule Induction (Initial Training) WI-1, WI-2 or WI-PS
 - Safety Rule Refresher WI-1/WI-2, DE-1, WL-2 and SB-2
- To be implemented Q1 2015
 - LV Live Working WL-1, Jointing, Fitting or Overhead Lines
- Implemented For SP Metering Staff Only Q1 2014
 - OP-3 WI-3

New approaches to authorisation

Three Month Temporary Authorisations Available on Limited Level of Authorisation (WI-1, DE-1 and in some cases SR-3/4)

- Subject To SP Business Manager Approval
- Established to allow system experienced contractors who have tight timescales for projects, to be authorised temporarily while courses are booked and attended.

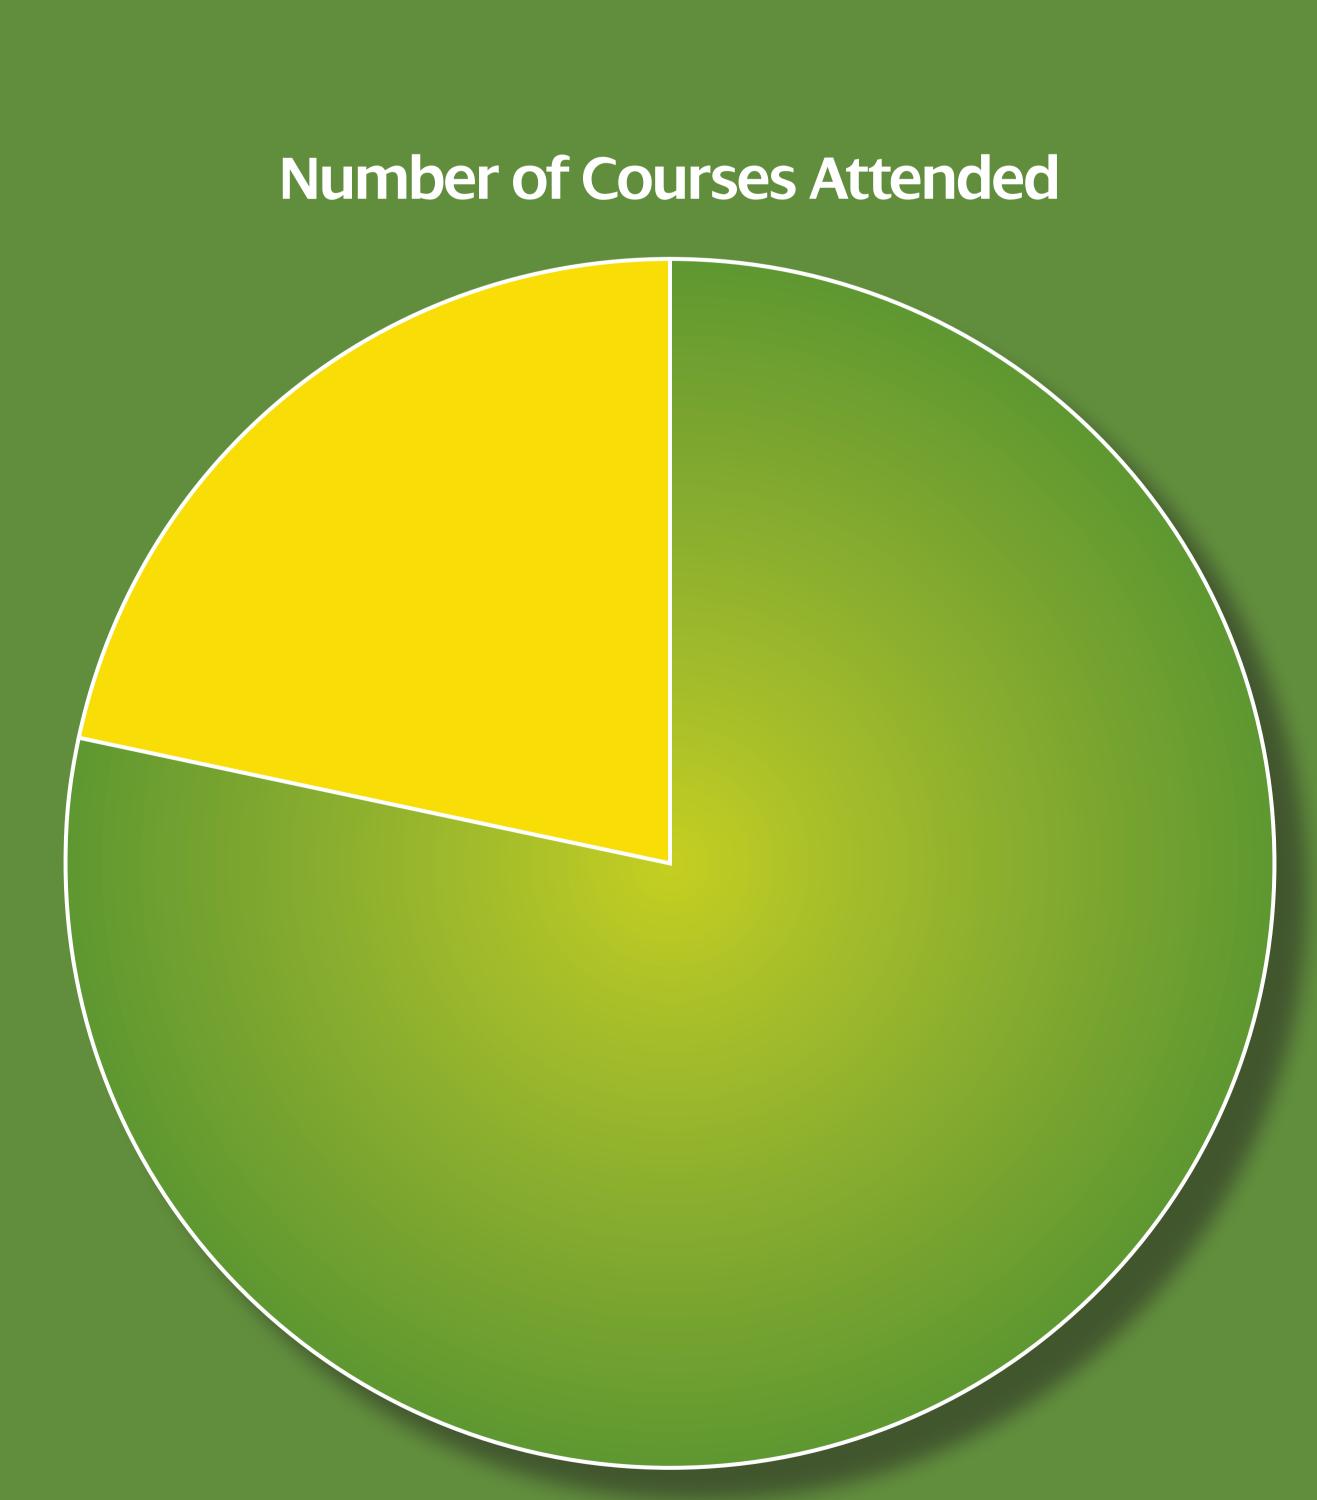

Working together gets better results

Areas for Improvement

- Better preparation of those attending courses
- Working with you, providing extra support in advance

New Safety Rule Induction and Safety Rule Refresher Results

From 31st March to 2nd May 2014

45 Fails from 209 Attended Courses
