The Board of Directors of IBERDROLA, S.A. (the “**Company**”) is vested with the duty to approve the Company’s corporate policies and to formulate its tax strategy. The Board of Directors is also responsible for approving investments and transactions that are particularly important from a tax standpoint because of the high amount or special characteristics thereof.

In the exercise of such duties, the Board of Directors approves this *Corporate Tax Policy* (the “**Policy**”), which forms part of the corporate governance and regulatory compliance policies and sets forth the Company’s tax strategy, based on excellence and a commitment to the application of good tax practices within the framework of the corporate and governance structure of the group of entities of which the Company is the controlling entity, within the meaning established by law (the “**Group**”).

1. Purpose

The Company’s tax strategy consists basically of ensuring compliance with applicable tax laws and regulations and seeking to establish an appropriate coordination of the tax practices followed by the companies of the Group, all within the framework of fulfilling the corporate interest and supporting a long-term business strategy that avoids tax risks and inefficiencies in the implementation of business decisions

To that end, the Company takes into account all legitimate interests, including public interests, that converge in its business. In this connection, the taxes that the Group pays in the countries and territories in which it does business are its main contribution to the funding of public purpose needs and, accordingly, one of its contributions to society and to the achievement of goal eight of the Sustainable Development Goals (SDGs) approved by the United Nations.

2. Principles

Compliance by the Group with its tax obligations and its relations with tax authorities shall be governed by the following principles, the application of which corresponds to each of the companies of the Group in accordance with the standards set out in section 4 below:

- a. Compliance with tax rules in the various countries and territories in which the Group operates, paying all taxes due in accordance with the legal system.
- b. The making of decisions on tax matters by the companies of the Group based on a reasonable interpretation of applicable legal provisions and in close relationship to the activities of the Group.
- c. The prevention and reduction of significant tax risks, ensuring that taxes bear an appropriate relationship to the structure and location of activities, human and material resources, and the Group’s business risks.
- d. The strengthening of the relationship with tax authorities based on respect for the law, fidelity, reliability, professionalism, cooperation, reciprocity and good faith, without prejudice to the legitimate disputes that, observing the aforementioned principles and in the defence of the corporate interest, may arise with such authorities concerning the interpretation of applicable legal provisions.
- e. The provision of information to the management decision-making bodies on the main tax implications of the transactions or matters submitted to it for approval, when they are a significant factor in making a decision.
- f. Envisaging the taxes that Group companies pay in the countries and territories in which they operate as the principal contribution to sustaining public expenditures, and therefore as one of their contributions to society.

3. Good Tax Practices

Applying the foregoing principles, the Group assumes the following good tax practices:

- a. Not to use artificial structures unrelated to the Group’s business for the sole purpose of reducing its tax burden nor, in particular, enter into transactions with related entities solely to erode the tax basis or to transfer profits to low-tax territories.
- b. Avoid opaque structures for tax purposes, which are understood as structures calculated to prevent knowledge by the competent tax authorities of the party ultimately responsible for the activities or of the ultimate owner of the assets or rights involved.
- c. Not to create or acquire companies resident in countries or territories that Spanish legal provisions deem to be tax havens or that are included in the EU blacklist of non-cooperative jurisdictions, with the sole exception of those cases in which the Group is forced to do so because it is an indirect acquisition in which the company in question is part of a group of companies that are being acquired, in which case the provisions of the *Procedure for the Acquisition of Equity Interests in Entities Domiciled in Tax Havens* approved by the Company’s Board of Directors must be taken into account.
This procedure shall also apply in the case of creation or acquisition of entities residing in countries and territories not considered to be tax havens under Spanish legal provisions but included in the EU grey list of non-cooperative jurisdictions and with which Spain has not signed a treaty for the avoidance of double taxation.
- d. Follow the recommendations of the good tax practices codes implemented in the countries in which the companies of the Group do business, taking into account the Group’s specific needs and circumstances.

In Spain, the Company has adhered to the *Code of Good Tax Practices* (the “**Code**”) approved on 20 July 2010 by the full Forum of Large Businesses (*Foro de Grandes Empresas*) – established on 10 July 2009 at the behest of the National Tax Administration Agency (*Agencia Estatal de Administración Tributaria*).

Without prejudice to any revision of this *Policy* by the Company's Board of Directors within the framework of ongoing improvement of the Governance and Sustainability System, the Company's commitment concerning compliance with, further development, and implementation of the Code shall extend to any other good tax practices that stem from the recommendations of the Code in effect at any time, even if not expressly set forth in this *Policy*.

The Group is also committed to compliance with the *OECD Guidelines for Multinational Enterprises* in the area of taxation.

- e. Cooperate with the competent tax authorities in the detection of and search for solutions for fraudulent tax practices of which the Company is aware that may be used in the markets in which the Group has a presence.
- f. Provide significant tax-related information and documents that may be requested by the competent tax authorities as soon as practicable and with the required scope.
- g. Notify the appropriate body of the competent tax authority and sufficiently discuss therewith all significant issues of fact of which it has notice, in order to commence the appropriate investigative proceedings, if any, and to promote agreements and consents during the course of inspection proceedings, to the extent reasonably possible and without impairing good corporate management.
- h. Make available to anyone who so desires the reporting channels required for them to report conduct that may involve the commission of an improper act or an act in violation of legal provisions or of the rules of conduct established in the *Code of Ethics*, therefore including conduct in the tax area.
