

1. SCOPE

This is the index for the Energy Networks' Management Safety Procedures. The hyperlinks in Section 6 of this index will take you to the documents published on the EN Document Library which is only accessible to Energy Networks staff. However, these documents are also published externally to the [SP Energy Networks website](#).

2. ISSUE RECORD

This is an Index. The current version is held on the EN Document Library.

It is your responsibility to ensure you work to the current version.

Issue Date	Issue No.	Author	Amendment Details
19/02/2021	56	Alison Darling	New: OPSAF-11-107 Issue 1 – MSP 2.20 Procedure for Working on the Angle-DC HVDC Link OPSAF-11-104 Issue 1 - MSP 2.19 Procedure for Working on Phoenix Hybrid Synchronous Compensator System OPSAF-11-105 Issue 1 - MSP 3.3.1 - Approved procedure for the Restoration of Motive Power Supplies (ROMP) on Phoenix Hybrid Compensator's Synchronous Condenser Withdrawn: OPSAF-11-093 Issue 1 – MSP 2.4.32 Approved Procedure - Connection & Disconnection of Plant & Apparatus to the System at Hunterston Converter Station During Construction & Commissioning Phase
17/04/2021	57	Alison Darling	Update: OPSAF-11-007 Issue 4 - MSP 1.5 Achieving Safety on Overhead Lines while Carrying Out HV Rubber Glove Working
01/06/2021	58	Alison Darling	Update: OPSAF-11-007 Issue 5 - MSP 1.5 Achieving Safety on Overhead Lines while Carrying Out HV Rubber Glove Working OPSAF-11-016 Issue 4 - MSP 2.5 - Procedures to be Adopted when the Safety Rules (Safety Document Process and/or Safety Features) cannot be applied OPSAF-11-027 Issue 3 MSP 4.2 - Application and Use of Locks for Access and Operational Equipment

4. REVIEW

This is an Index which has a 5 year retention period after which a reminder will be issued to review and extend retention or archive.

5. DISTRIBUTION

This is the Index for the Management Safety Procedures maintained by Document Control but does not have a maintained distribution list.
