Appendix 7.2

1.1 Site Photos relating to the New Build Overhead Line (WB route)

Photograph 9-1: View of new Tower WB002 and the area of the track that will provide access to the Tower.

Photograph 9-2: View of track that will provide to Towers WB011 and WB010

Photograph 9-3: View of new Tower WB012.

Photograph 9-4: View of tower WB015 (foreground) and WB016 (background) and the area of the track that will provide access to the Towers

Photograph 9-5: Views of the area of Towers WB021A.

Photograph 9-6: View of new Tower WB024.

Photograph 9-7: Views east along the access track to Towers WB043-WB045.

Photograph 9-8: View of access track to Towers WB053 and WB054.

Photograph 9-9: Views west from access WB-B24 towards Towers WB054 and WB055

1.2 Site Photos relating to the Upgraded Overhead Line (ZG Route)

Photograph 9-10: View of Tower ZG010 (left of image) and the area of the track that will provide access to the Tower.

Photograph 9-11: View from the scheduled Hill of Dunipace motte and burial ground (SM3420) looking east towards the ZG Route and Towers ZG010 and 011.

Photograph 9-12: Views from the southeast corner of Denny North substation towards the ZD and ZG overhead lines.

1.3 Site Photos relating to the Upgraded Overhead Line (XX Route)

Photograph 9-13: view of Tower XX003 central and Easterhouse substation (left) with AECOM 19 in the foreground.

Photograph 9-14: view of access track to Towers XX005, XX006 and XX007.

Photograph 9-15: View of Tower XX010 and XX011. With AECOM 023 heritage asset in foreground.

Photograph 9-16: View of Towers XX012 and XX013 from Burnlip cottage heritage asset (135932).

Photograph 9-17: View of Tower XX025 and bellmouth.

Photograph 9-18: View of Tower XX027 and track that will provide access to Tower.

Photograph 9-19: View of AECOM heritage point (AECOM027).

Photograph 9-20: View of AECOM heritage point (AECOM028) and Tower XX030

1.4 Site Photos relating to the Upgraded Overhead Line (XR Route)

Photograph 9-21: Views north towards Tower XR004.

Photograph 9-22: View of Tower XR011 and track to access the Tower.

Photograph 9-23: Views of the XR overhead line as it passes through the former Allanton Parkland.

Photograph 9-24: Allanton Lodge () located near access XR-B15.

Photograph 9-25: View of Tower XR017 and heritage point AECOM 039.

1.5 Site Photos relating to the Removal of the CB Route

Photograph 9-26: Views northeast towards CB013

Photograph 9-27: Views southwest towards Towers CB008-CB012

Photograph 9-28: Views southwest towards Towers CB023.

Photograph 9-29: Views southwest towards Tower CB026

Photograph 9-30: Views northeast looking towards Tower CB027

Photograph 9-31: View north along access track WB-B20 to access Towers CB030, WB047 and AA009CSE.

Photograph 9-32: Views south from Bonnybridge Substation towards the CB Route (right) and AA Route (left).

1.6 Site Photos relating to Denny North Substation Works

Photograph 9-33: View of the northwestern element of the existing Denny North substation.

Photograph 9-34: View of the southeastern side of the existing Denny North substation looking towards Towers ZD096B and ZG001A.

Photograph 9-35: View south from the southeastern corner of the existing Denny North substation along the access tracks towards Towers ZD095A and ZD095.

Photograph 9-36: View along the southwestern boundary of the existing Denny North substation where most works will be focused. Tower ZD096A is right of centre.

Photograph 9-37: View of the scheduled Doghillock Dun (SM6929) located on the northwestern side of Denny North substation, with existing overhead line in the background.

Photograph 9-38: View from the scheduled Doghillock Dun (SM6929) boundary looking west towards the existing Denny North substation.

1.7 Site Photos relating to Bonnybridge Substation Works

Photograph 9-39: View of the existing Bonnybridge Substation from the south, showing the existing access to be upgraded.

Photograph 9-40: View of the existing Bonnybridge Substation from the southeast looking towards an area of access tracks.

Photograph 9-41: View of Tower AA001A and the compound to the southeastern corner of the existing Bonnybridge Substation.

Photograph 9-42: View of Tower CB039 and the compound to the southwestern corner of the existing Bonnybridge Substation.

Photograph 9-43: View of the eastern half of the extension area to the west of the existing Bonnybridge Substation.

Photograph 9-44: View of the western half of the extension area to the west of the existing Bonnybridge Substation, and the area of Towers WB058 and WB057.

1.8 Site Photos relating to Easterhouse Substation Works

Photograph 9-45: Easterhouse Substation viewed from the east.

Photograph 9-46: Views of the existing XX Route (Towers XX001a) east of Easterhouse Substation.

Photograph 9-47: Area of the construction compound north of the existing Easterhouse Substation (compound left of image), with the XX Route in the distance.

Photograph 9-48: Easterhouse Substation from the north (the compound will be in the foreground).

1.9 Site Photos relating to Newarthill Substation Works

Photograph 9-49: Views of Newarthill Substation from the west.

Photograph 9-50: View of the southern section of the Newarthill Substation. The works will be within the footprint of the existing substation.

1.10 Site Photos relating to Wishaw Substation Works

Photograph 9-51: Views of the eastern end of Wishaw Substation in the area of the works.

Photograph 9-52: Area of the compound associated with the Wishaw Substation works.

1.11 Site Photos relating to Cumbernauld Substation Works

Photograph 11-53: View of the area of the Cumbernauld Extension from the south (the new trees in the foreground will remain).

Photograph 11-54: View of track to the northeast of Cumbernauld Substation.

Photograph 11-55: Views along existing powerlines to the south of Cumbernauld Substation.

Photograph 11-56: Views along the western boundary of Cumbernauld Substation where the extension will be located (i.e. the woodland to the right of the image).

Photograph 11-57: Views of the existing Cumbernauld Substation
