Table of Contents

1 Introduction

Figure 1.1 Site Location

3 Site Selection and Alternatives

Figure 3.1 Alternative Substation Sites

4 Description of the Proposed Development

Figure 4.1 Kincardine North Substation

Figure 4.2 Overhead Line Works

Figure 4.3 Scottish Power Distribution Works

6 Ecology

Figure 6.1 Location of the Proposed Development

Figure 6.2 Statutory Designated Sites

Figure 6.3 Ancient Woodland Inventory Sites

Figure 6.4 Habitat Survey Results

Figure 6.5 Important Species Survey Results

Figure 6.6 Wintering Waterbirds Surveys Results

7 Landscape and Visual Amenity

Figure 7.1 Zone of Theoretical Visibility and Representative Viewpoints

Figure 7.2 Topography

Figure 7.3 Landscape Character

Figure 7.4 Landscape Designations

Figure 7.5 Outline Landscape Plan (KINN)

8 Cultural Heritage and Archaeology

Figure 8.1 Known Heritage Assets within the 1km Study Area

Figure 8.2 Designated Heritage Assets within the 2km Study Area

9 Water Environment

Figure 9.1 Surface Water Receptors

Figure 9.2 Groundwater Receptors

Figure 9.3 Flood Risk

Figure 9.4 Bedrock Geology

Figure 9.5 Superficial Geology

10 Ground Conditions

Figure 10.1 Superficial Geology

Figure 10.2 Bedrock Geology

Figure 10.3 Mining

Figure 10.4 Geology related Designations

11 Traffic & Transport

Figure 11.1 Traffic Survey Locations

Figure 11.2 Study Area Roads

Figure 11.3 Injury Accident Locations
