1. Introduction

1.1 OHL Noise Sensitive Receptors (NSRs)

This appendix details the noise sensitive receptors (NSR) that fall within 500 m of the Proposed Development. It should be read in conjunction with Chapter 12: Construction and Operational Noise and Chapter 4: Project Description of the EIA for full details of the Proposed Development. NSR names are provided in Table 1.1 where available, alongside EPSG:27700 / British National Grid coordinates.
