

Open Data Monthly Report

January 2025

Highlights & Useful Links

January Highlights

- In January, we saw a continuation of the trend of increased activity into our Open Data team, **receiving 26** bespoke Open Data Requests in the month, against a 12 month average of 15.
- 20 of these were **successfully completed** in January, with an average resolution time of 5 days, and 6 remain under development in conjunction with requestors.
- We **concluded** our Open Data Survey, with a marked increase in the number of responses received. Responses are being reviewed and our action plan will be **published** in the next few weeks.
- We **published** the first phase of our **Aggregated Smart Meter Data** on our Open Data Portal – which provides data from the Wirral District within our SPM Licence area.
- We enabled the “**re-use**” **function** on our Open Data Portal, which enables our data users to showcase the value which they get from using our data sets – and we will be working with our stakeholders to **share insights and ideas** on how to get the most from our data.

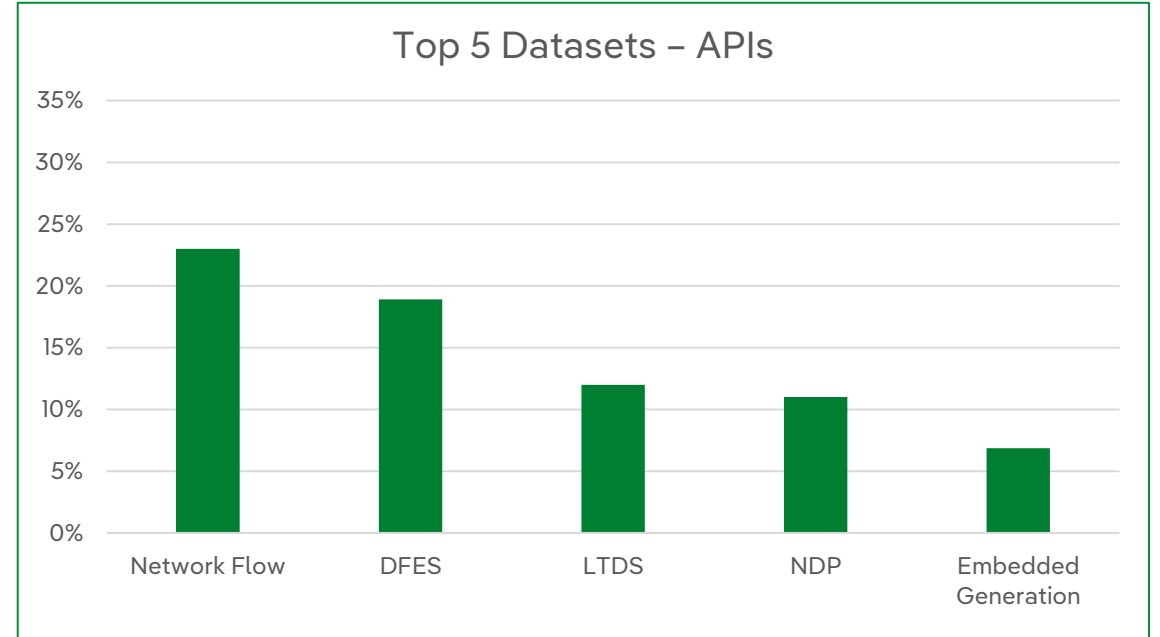

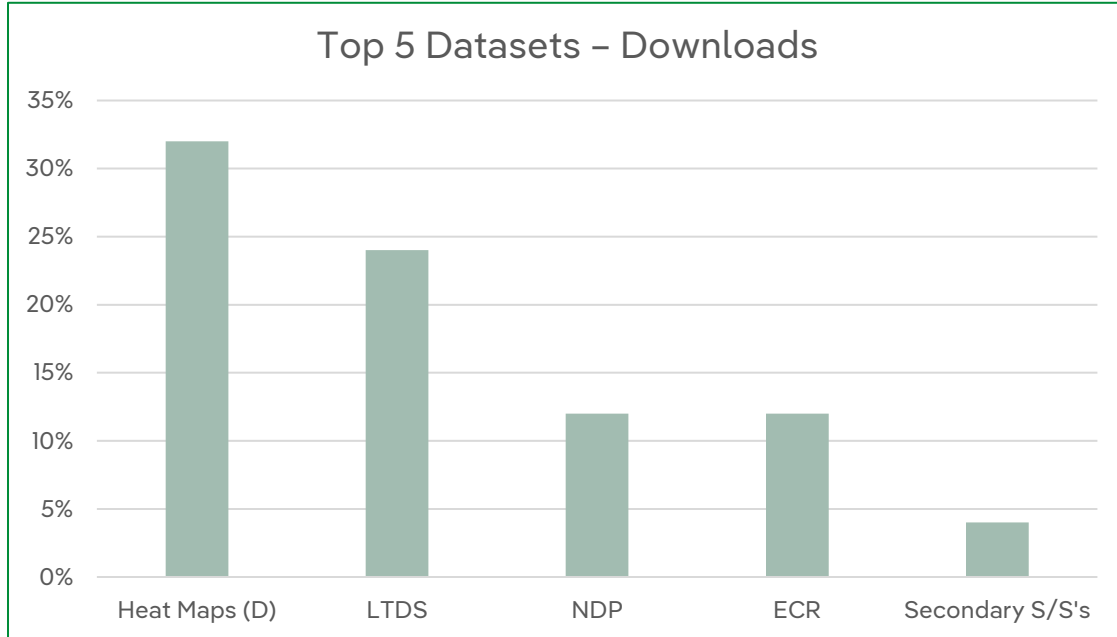

Planned Developments

- Annual refresh of DFES datasets (Feb '25).
- Launch of feature page for Network Development Plan (Q1'25).
- Publication of the next in the series of videos outlining how to get the most from some of our most used data sets (Q1'25).
- Publication of survey findings and agreed actions (Mar '25).
- Publication of Aggregated Smart Meter Data (Phase 2) (Mar '25).
- Publication of our '**Data Roadmap**', upcoming datasets to be hosted on our Portal (Mar '25).
