

Open Data Monthly Report

May 2025

Highlights & Useful Links

May Highlights

- In May, our Open Data Portal welcomed **134 new registered** users, saw a total of **115,000 API calls** and **2,700 data downloads**.
- Our newly published Aggregated Smart meter and Flexibility datasets have been our most consumed data via an API during May – reinforcing their value to stakeholders.
- **GIS Shapefiles** remain our most requested dataset, followed by data on **Network assets, Network Outages** and **Network Capacity**.
- In May, we received **14 individual Data Requests** with **11 successfully completed** in an average resolution time of 4 days, ahead of our average resolution time of 8 days.
- **We completed ongoing publication of our data methodologies**, supporting our commitment to transparency in what we do.
- **We've commenced testing of the "Recite Me" accessibility toolbar on our Portal**, which will support inclusive access through features like text-to-speech, translation, and reading aids. We are now working towards a planned launch this year.

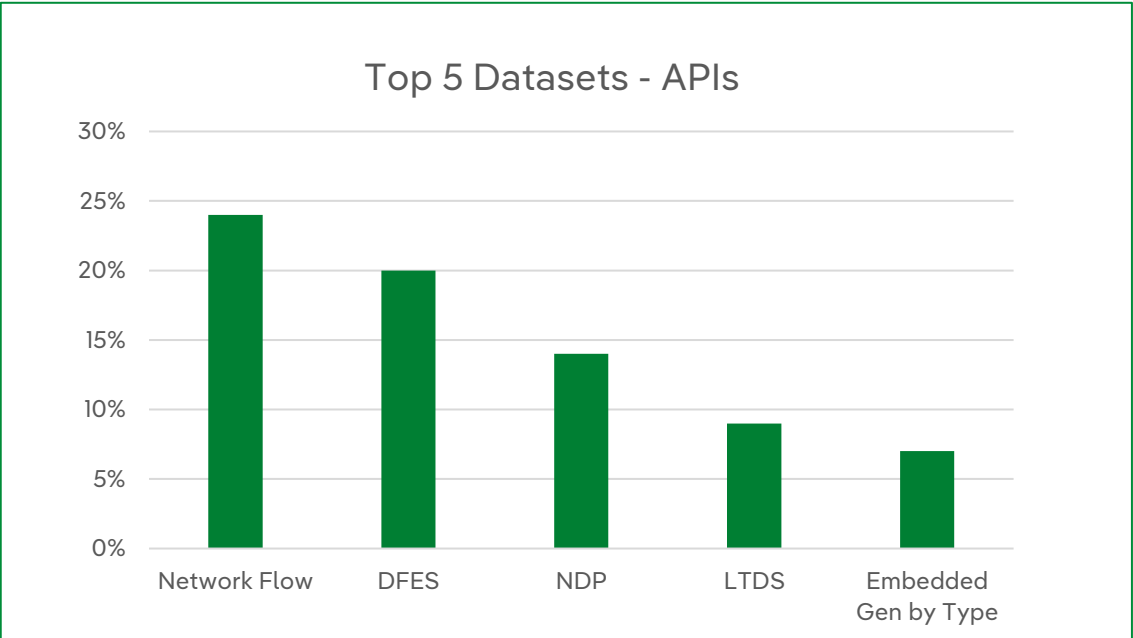

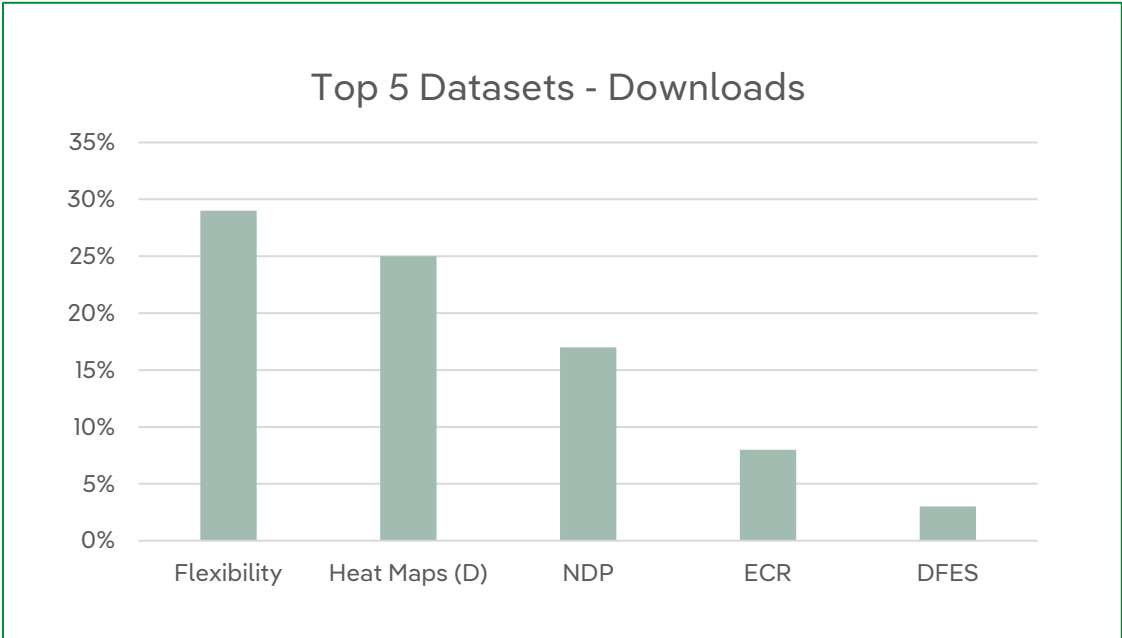

Planned Developments

- Launch of our Network Development Plan feature page (June).
- Release of additional support & information videos, outlining how we are responding to your feedback and offering an overview of datasets planned for publication (June).
- **Planned publication of new datasets:**
 - *Live Outage Data (June)*
 - *Connections Data (June)*
 - *Faults Data (June)*
- Launch of our Flexibility Activity Dashboard (June).
- Go Live of the Recite Me toolbar on our Open Data Portal (Q4)
