

RAdAR

Register of Adopted Asset Requests

Key Benefits

- Improve Communication
- Improve Efficiencies
- Reduce Operating Costs
- Simplified system to reflect process stages
- Online Forms
- Status Tracking

Aims & Objectives

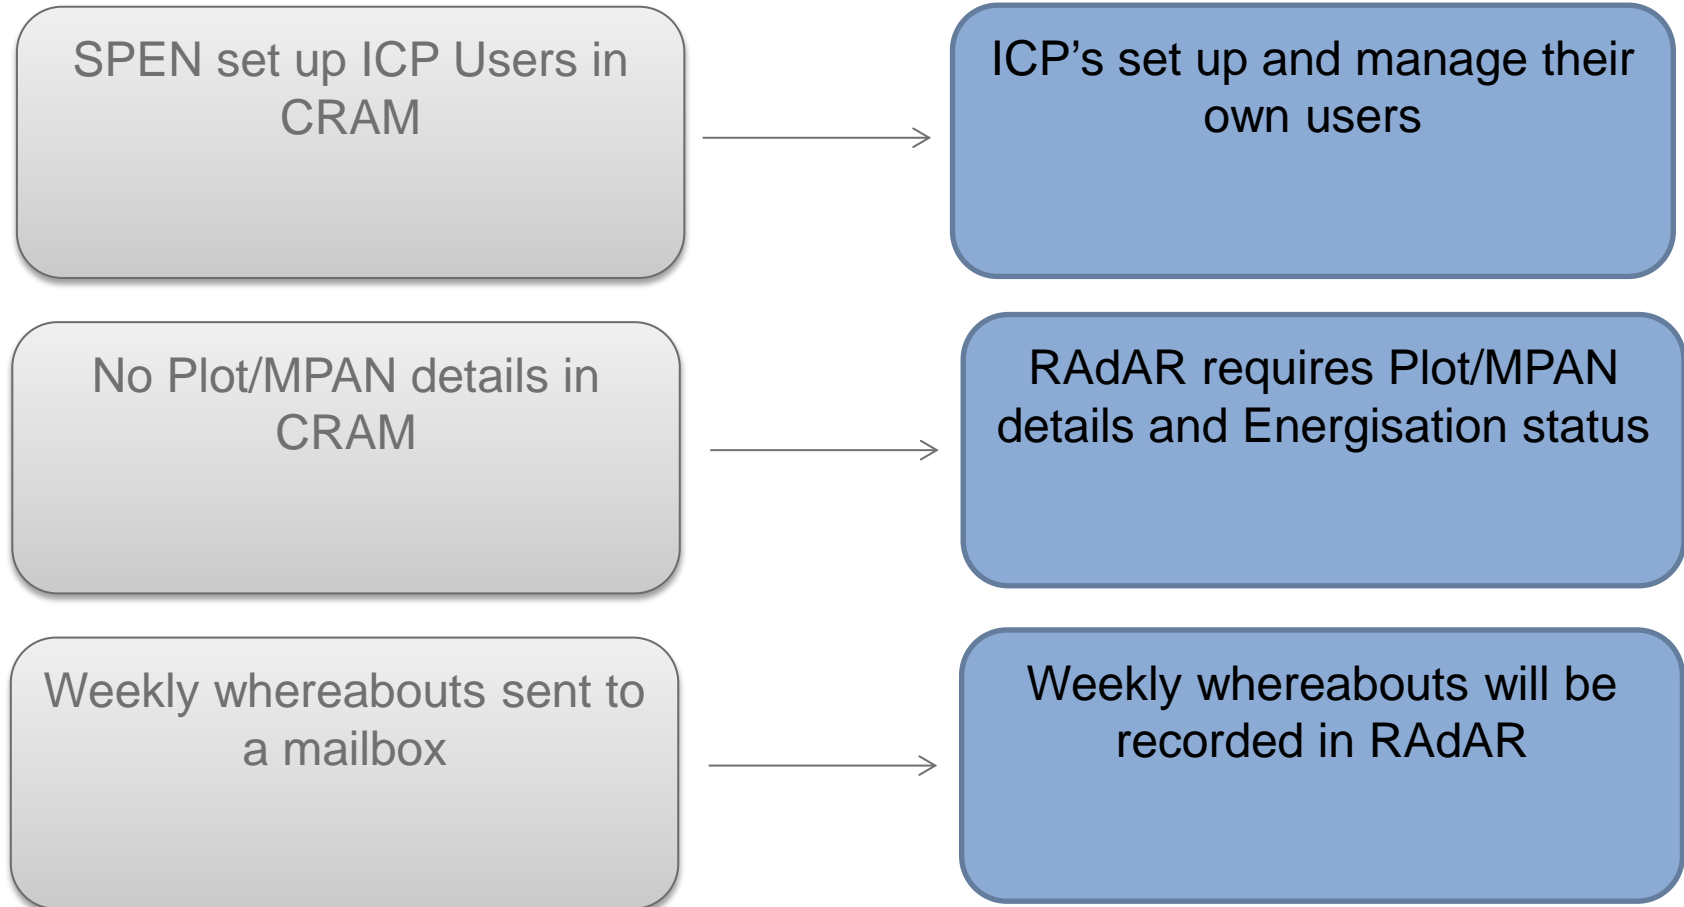

By the end of this session you will be able to :

- Explain the key changes that are effective from RAdAR go live
- Understand the new terminology which replaces 'Binders'
- Have an overview of the process from start to finish in RAdAR

Process Changes

Processes Changes

Processes Changes

Payment currently made
after Design Approval

Now required after POC
Acceptance but before
Design approval.

Design Approval by
'Asset Type'

Design Approval will be by
'Asset Type' and phased

Asset Inspectors have a
spreadsheet system
outwith CRAM

Audit and audit outcomes
are recorded in RAdAR

Processes Changes

Live jointing works as a
contestable activity

Formerly EoCW trial becomes
BAU on RAdAR go live

POCs determined by the
DNO

Self-determination of POCs by
ICPs (under EoCW trial)
