11:45 – RIIO ED2 Plan Proposals

12:00 – Close

THIS SESSION WILL BE RECORDED

Safety Contact

Distribution Network Operator
Cut-out Types & Ratings Guidance

This document is intended to assist HP and EV Charge Point installers by providing photographic examples of the various types of cut-out that exist on the DNO networks and their suitability to accommodate the increased load from new LCT devices installed in consumers' homes.

Overview of App

- ▶ Michael Alexander
- ▶ SPEN Business Change Project Manager

Michael Alexander

Demo of the new proposals

RIIO – ED2 Preparations

- ▶ Rachel Shorney
- ▶ SP Manweb Stakeholder Engagement Manager

The Context for RIIO-ED2

RIIO-ED2 will be a time of profound change for Distribution Networks

Our RIIO-ED2 Strategy

We will: “Work with the communities we serve to enable a just transition to our Net Zero future”

Develop a network that's ready for Net Zero

- We will develop the network of the future
- We will ensure a safe and reliable electricity supply
- We will provide timely and efficient connections

Be the trusted partner for our customers, communities and stakeholders

- We will deliver excellent satisfaction and enhanced services for all customers
- We will support vulnerable customers and communities to ensure no-one is left behind
- We will work with stakeholders to facilitate the energy system transition

Ready our business for a digital and sustainable future

- We will support an environmentally sustainable network
- We will promote an inclusive, skilled and community-based workforce
- We will embed digitalisation and utilise data to unlock benefits for customers and stakeholders

We'd love your feedback
