

Statement on redactions

SP Energy Networks have published our response to Ofgem's Draft Determination (DD) consultation for RIIO-T3 on our website at spenergynetworks.co.uk

To aid transparency for our stakeholders, where possible, we have published supporting documents in annexes alongside the Draft Determination response.

In compliance with Ofgem's guidance, we have redacted some material throughout our response where this information is not suitable for public disclosure. Any financial figures which have been redacted are for reasons of commercial confidentiality as for example the disclosure of unit cost assumptions has the potential to disadvantage the company in future tendering negotiations. In addition, any asset information for reasons of national security to protect critical national infrastructure.

If anyone wishes to query a redaction, please contact us directly via:

riio-t3pmo@spenergynetworks.co.uk
