Invitation to Tender for the Provision of Flexibility Services

Part 1

Contents:

- 1. Introduction**
- 2. Procurement Timescale**
- 3. Service Requirements**
- 4. Bids Submitted**

1. INTRODUCTION

SP Energy Network (SPEN) is currently looking to procure flexibility services to assist particular areas of network within both SP Distribution and SP Manweb during times of constraint.

Tenders are invited for the provision of flexibility services as detailed on the Picloflex platform.

2. PROCUREMENT TIMETABLE

Step	Timeline
Prequalification Period	4th October 2019 to 6th December 2019
Bids Open	11th December 2019
Tender Closing Date	15th January 2020
Contract Award	14th February 2020
Testing and Commissioning	1 month prior to first Service Window

3. SERVICE REQUIREMENTS

The detailed Service Requirements are as per those uploaded on to the Picloflex platform.

4. BIDS SUBMITTED

Instructions on how to submit bids on the Picloflex platform are available on the Picloflex website.

- a. Service Providers can submit individual bids for the different Service Requirements within each area.
- b. MWs / MVARs can be offered in smaller volumes with either a single price or split price offered.
- c. Bids must be for the whole service window of the individual Service Requirements

By submitting a bid, Service Providers are confirming their acceptance of the terms and conditions of this procurement and the Flexibility Services Agreement.
